

Chinmay Betageri

Full-Stack Developer | React | Node.js

+91 78488 95581 | kbchinmay004@gmail.com | Hubli, Karnataka | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

Computer Science Engineering graduate (AI & ML) with hands-on experience building and deploying full-stack web applications across both NoSQL and relational databases. A hands-on problem solver, comfortable owning a project end to end, from schema design and REST API architecture through production deployment.

TECHNICAL SKILLS

Languages & Technical Skills: JavaScript, Python, C++ | React, HTML5, CSS3, Tailwind CSS

Backend & Databases: Node.js, Express.js, REST APIs, WebSockets, Zod | PostgreSQL, MongoDB, MySQL, Drizzle ORM

Tools: Git, GitHub, Postman, Vercel, Render

Concepts: DSA, OOP, DBMS, OS, Computer Networks, Agile, Responsive Design, Unit Testing

PROJECTS

Expense Tracker & Group Split App | [GitHub Repo](#) | [Live URL](#)

Jun 2026 – Aug 2026

React, Node.js, Express, MongoDB Atlas, Supabase Auth, Recharts

- Designed and implemented a custom debt-settlement algorithm that nets group balances and generates the minimum set of repayment transactions via greedy matching.
- Engineered full-stack application (React + Vite frontend, Node.js/Express backend, MongoDB Atlas) with Supabase authentication for secure per-user data isolation.
- Built a REST API for expenses and groups, adding CRUD, category filtering, CSV export, and budget alerts; visualized spending with Recharts and a custom CSS system.
- Deployed frontend on Vercel and backend on Render, resolving cross-platform environment configuration and case-sensitive module resolution on Linux hosting.

Sportz – Live Sports Scoring & Commentary API | [GitHub Repo](#)

Aug 2026 – Present

Node.js, Express 5, PostgreSQL, Drizzle ORM, Zod, WebSockets, Arcjet

- Developed a live-sports scoring REST API using Node.js/Express and PostgreSQL, enabling real-time updates through WebSocket integration.
- Designed a relational schema and handled SQL migrations with Drizzle ORM, ensuring foreign-key integrity for match and commentary entities.
- Implemented schema-based request validation with Zod across all endpoints, organized in clean route / validation / db layers with environment based configuration.

EXPERIENCE

ASPL Arctictern Pvt. Ltd. – Computer Vision Intern

Jan 2026 – May 2026

- Annotated multi-modal LiDAR point-cloud and camera image datasets over a 5-month internship for ADAS perception model training.
- Produced precise 3D bounding-box annotations for pedestrians, cyclists, pickup trucks, heavy trucks and construction vehicles.
- Completed annotation and QA across a 5-stage review pipeline, maintaining 85%+ accuracy per stage as validated by senior annotators using Understand.ai (dSPACE).

EDUCATION

B.E. in Computer Science Engineering (AI & ML) | 2023 – 2026

KLS Vishwanathrao Deshpande Institute of Technology, Haliyal | **GPA: 7.5**

Diploma in Computer Science Engineering | 2020 – 2023

Government Polytechnic, Hubballi | **GPA: 7.0**

CERTIFICATIONS

- Web Development Fundamentals – *IBM SkillsBuild*
- Claude 101 by Anthropic – *Anthropic Skilljar*
- Building RAG Apps Using MongoDB – *MongoDB University*
