Summary

Computer Science Engineering graduate with hands-on experience building and deploying full-stack web applications. Proficient in JavaScript, React, Node.js, Express, and MongoDB, with a track record of shipping production-ready projects including a live application with a custom algorithm for group expense settlement from database design through deployment.

Technical Skills

Languages:	JavaScript, Python, C++
Frontend:	HTML5, CSS3, React.js, Tailwind CSS
Backend:	Node.js, Express.js, REST API, Supabase
Database:	MongoDB Atlas, MySQL
Tools:	Git, GitHub, VS Code, Docker, Postman, Web Sockets
Core Concepts:	OOP, DSA, Operating Systems, Computer networks, DBMS

Projects

Expense Tracker & Group Split App — React, Node.js, Express, MongoDB, Supabase | [Github](#) | [Live link](#) **June 2026 – Aug 2026**

- Built a full-stack expense tracking application using React (Vite), Node.js/Express, and MongoDB Atlas, with Supabase authentication for secure per-user data isolation.
- Designed and implemented a group expense-splitting feature with a custom settlement algorithm that calculates net balances and generates minimal payment transactions between group members
- Developed a complete REST API supporting CRUD operations for expenses and groups, with category-based filtering and query support.
- Integrated Recharts to visualize spending patterns by category, and built a custom UI design system using CSS variables for a polished, distinctive interface.
- Deployed the frontend on Vercel and backend on Render, resolving cross-platform deployment issues including environment configuration and case-sensitive module resolution.

Experience

ASPL Arctictern Pvt. Ltd. *Computer Vision Intern* **Jan 2026 – May 2026**

- Annotated multi-modal LiDAR point cloud and camera image datasets over a 5 month internship for ADAS perception model training.
- Produced precise 3D bounding box annotations for pedestrians, cyclists, pickup trucks, heavy trucks, and construction vehicles.
- Completed annotation and QA across a 5-stage review pipeline, maintaining 85%+ accuracy per stage as validated by senior annotators using Understand.ai (dSPACE).

Education

B.E. in Computer Science Engineering (AI & ML) KLS Vishwanathrao Deshpande Institute of Technology GPA: 7.5	2023 – 2026 Haliyal, Uttarkannada
Diploma in Computer Science Engineering Government Polytechnic GPA: 7.0	2020 – 2023 Hubballi, Karnataka
Class X KLE M. R. Sakhare State School 80.16%	2019 – 2020 Hubballi, Karnataka
